

January 22, 1973

SPEAKER: The Chair so rules. The next bill is LB 253, I believe that is Senator Marvel, now this bill is in the same situation, I believe, it was placed directly and I believe you had consent to do that by the body as I recall Senator Marvel, but at any rate it was placed on general file without a public hearing and the rules require we wait five days. Senator Marvel.

SENATOR MARVEL: I'd like to explain the problem and then present, in the process present the matter to the legislature. You have a sheet in front of you as promised, three page sheet which explains the deficiency appropriation 253. Now I'm not happy about trying to push through deficiency appropriation hurriedly. We have limited this bill to about ten items, the last two simply have to do with the repeal section in the emergency clause. There are other deficiencies, but we have not put them in this bill because there is not as much an emergency as these seem to be. I'd like to make two other points, one is the, or one I've made, this is a limited deficiency bill, secondly we have insisted that every department involved respond in great detail why they need this

(End of Belt #6)
